

OUR VISION

We imagine an **inclusive society** in which everyone can develop their full potential and become an active **“citizen of the world”**, **ready to take up** the challenges of our society for a sustainable future.

OUR MISSION

Through our **educational and awareness-raising projects**, we strive to generate greater awareness of environmental issues, to support the transition towards a **sustainable society** which is respectful of the planet and its inhabitants, and to contribute to delivering the **Sustainable Development Goals (SDGs) by 2030**.

OUR GOALS

- ◇ Create a **strong relationship** with nature and all forms of life from an early age.
- ◇ Promote a **sustainable way of life based on respect for oneself, for others and for the environment**.
- ◇ Help students to develop the **skills needed for sustainable development** and the motivation to take action.
- ◇ Support schools **in running projects in education for sustainable development**.
